## Custom Skylight Designs with Endless Possibilities

**Extensive line of configurations, finish colors, and glazing options.**

The Architectural Series offers metal framed structural skylight systems for a dramatic look. Choose from our versatile configurations with a full range of glazing options including hurricane resistant glass. Available with a wide range of finish color options.

- Extensive line of configurations, finish colors, and glazing options.
- Fully customizable – up to 40' wide at unlimited lengths.\*
- Glazing options include hurricane rated, electrochromic, photovoltaic, and insulated glass, or cellular polycarbonate with or without aerogel fill.
- On-site engineering assistance and daylight analysis available.

**Please call for more information. 1-800-888-3589**

### Finish Colors

\*Approximate span widths depending on configuration and load. Contact your local sales representative for more information.

# Large Span Single Light Skylight

## SkyMax Skylight

### Curb-Mounted Skylight – Model GSM

The dramatic SkyMax doubles the square footage of standard size flat glass unit skylights – without loss of thermal efficiency – at a fraction of the cost of structural skylights. SkyMax's one piece extruded vinyl curb incorporates a condensation channel, eliminating the need for weep holes. This, combined with high-end glazing options, maximizes its thermal performance.

- Single light up to 32 square feet – TEN FEET at longest dimension.
- Sizes are based upon the outside dimension of the curb (ODC).
- For use with site-built curb and flashing.
- The vinyl frame is structurally reinforced with aluminum.
- The elimination of weep holes increases thermal performance.
- Quaker Bronze paint finish is standard. Custom finish colors and copper cladding available (see page 7).
- For sizes up to 27 sq ft, consider custom model FCM (see page 7).

### Model GSM Custom sizes:

- Up to 32 sq ft, up to 10' at longest dimension!
- Minimum ODC: 17½" W or H
- Maximum ODC: 120" W or H
- Delivery: **D**

# Self-Flashed Skylights

No Leak Warranty

10-year installation warranty

no flashing required

## E-Class Skylights

### Deck-Mounted Skylights – Models EF, EV, EVMS

- For use with thin roofing materials such as composition, slate, wood shingles and shakes up to ¾" thick.
- Sizes are based on the rough opening in the roof (RO).
- No assembly, step-flashing, mastic, or sealants needed.
- Custom sizes and finish paint colors are available (see page 7).
- Manual blinds available for standard sizes. Blinds and telescopic pole sold separately.
- Model EV: Price includes screen, white crank handle and pole eye adapter. Model EVMS: Units include screen, factory installed solar rechargeable battery powered motor with rain sensor, and remote control that can control multiple units.

**Non-dealer disclaimer**

List prices shown do not include shipping and handling cost, delivery cost by your local VELUX Dealer or applicable sales tax. Final unit pricing can be 10–15%+ higher depending on your location, services provided and final delivery of the skylight to the job site. Many of the skylights do not include flashings or blinds. These can be purchased separately.

All VELUX skylights, roof windows, Sun Tunnel Skylights, flashing kits and blinds must be purchased through a qualified VELUX dealer. Please see the "Where To Buy" section of veluxusa.com website for a list of VELUX dealers near you.

**NOTICE: ALL GLASS MAY BE SUBJECT TO UNEXPECTED AND SPONTANEOUS BREAKAGE** in rare circumstances due to imperfections in the glass that are undetectable during the manufacturing and inspection process by the manufacturer of the glass and VELUX.

VELUX offers the choice of laminated or tempered glass skylights. Impact glass and comfortplus glass are all types of laminated glass. Comfort glass is a type of tempered glass. Laminated glass is a combination of two or more glass sheets with one or more interlayers of plastic (PVB) or resin. In case of breakage, the interlayer is designed to hold the fragments together. Tempered glass does not contain an interlayer to hold the fragments together. Instead, tempered glass is designed to break into small, pebble-like pieces. When tempered glass breaks, pieces of glass come loose and may strike an individual.

**CONSULT LOCAL REGULATIONS AND/OR BUILDING MATERIAL CONSULTANTS TO DETERMINE WHICH TYPE OF GLASS IS RIGHT FOR YOU OR IF LAMINATED GLASS IS REQUIRED IN YOUR APPLICATION.**

**VELUX®**

The VELUX Group creates better living environments with daylight and fresh air through the roof. The VELUX product program contains a wide range of roof windows and skylights, along with solutions for flat roofs. The Group also supplies many types of decoration and sun screening, roller shutters, installation products, products for remote control for installation in roofs. The VELUX Group, which has manufacturing companies in 11 countries and sales companies in just under 40 countries, represents one of the strongest brands in the global building materials sector and its products are sold in most parts of the world. The VELUX Group has about 10,000 employees and is owned by VKR Holding A/S, a limited company wholly owned by foundations and family. For more details, visit velux.com.
